SUMMARY

I am a motivated software developer who puts solving a business problem in a simple way above all else. I excel in a team environment and I will always be an agile advocate.

I want to get better at Continuous Integration and although I have focused mainly on Java, I want to branch out into new technologies that can help me solve business problems more efficiently.

SPECIALTIES

Supply Chain, Agile, Java, TDD

SKILLS

Spring (4 years experience)	Maven (3 years experience)	Hibernate (5 years experience)
JBoss (3 years experience)	Agile (4 years experience)	Java (6 years experience)
Flex (1 year experience)	UML (3 years experience)	Web Services (3 years experience)
XML (5 years experience)	SOA (1 year experience)	SQL (3 years experience)
Tomcat (3 years experience)	J2EE (3 years experience)	Linux (3 years experience)
JMS (3 years experience)	Subversion (4 years experience)	HTML (1 year experience)
MySQL (2 years experience)	PostgreSQL (3 years experience)	Ruby (2 years experience)
Apache (2 years experience)	JAXB (1 year experience)	Servlets (1 year experience)
Ant (3 years experience)	Databases (4 years experience)	JDBC (3 years experience)
Architecture (2 years experience)	Swing (3 years experience)	OOP (6 years experience)
Operating Systems (7 years experience)	C++ (1 year experience)	JIRA (3 years experience)
IntelliJ IDEA (5 years experience)	REST (1 year experience)	Shell Scripting (< 1 year experience)

EXPERIENCE

Tradestream

07 / 2007 - Present

Senior Software Engineer

Maintenance and enhancement of Supply Chain Management software that integrates with various ERP systems and Logistics Service Providers.

Migrated the primary system from object database (FastObjects) onto relations database (Postgres). It was a very enjoyable yet challenging project as part of a 4 man team.

Served as ScrumMaster and developer on a greenfields Treasury project which was delivered on schedule

Constantly involved in projects to bring legacy code in line with new technology and requirement direction.

Currently serving on the internal Architectural Forum and Team Lead of a 4 man team tasked with ERP integrations

Dariel Solutions

07 / 2007 - 05 / 2009

Senior Java Developer

Most of my time at Dariel was spent contracted to Tradestream. Other activities involved participating in a 2 week

software audit as part of a 3 man team for ATM Solutions

MagnaFS

05 / 2004 - 06 / 2007

Software Developer

Started at MagnaFS (then Procon Fischer) as Progress 4GL developer cutting my teeth on systems like TRAFMAN (Traffic and Weighbridge Management System for city of Tshwane) and RTPM (Road Traffic Permit Module).

Started my first Java project in February 2005. LRMIS (Lesotho Livestock Registration Marking and Information System) is a system for registration of citizens in Lesotho. The project involved interfacing to devices such as video cameras, fingerprint readers and barcode readers; and secure network interfacing between remote Swing-based desktop applications and a central server .

Other projects included maintenance of software that communicated with NaTIS and later eNaTIS as Java gateway between eNaTIS and the TRAFMAN system and various R&D projects to interface with proprietary weighbridge devices and software and generating 2D bar codes for a variety of possible applications.

EDUCATION

University of Pretoria/Universiteit van Pretoria

1999 - 2003

B. Eng (Computer)

Guruhut

2005

3 month Java course , Java and OO fundamentals, Intermediate Java, OO design, OO analysis with use cases

Sun Microsystems

2005

Sun Certified Java Programmer (Java 1.4.2)

University of Pretoria/Universiteit van Pretoria

2003

Advanced course in Visual Basic. NET

University of Pretoria/Universiteit van Pretoria

2000

Cisco Certified Networking Associate (CCNA) diploma from the University of Pretoria

Ladybrand High School

1998

Matric Certificate , English, Afrikaans, Maths, Science, Biology, Accounting

LANGUAGES

Java (Full professional proficiency)

Ruby (Limited working proficiency)

CERTIFICATIONS

Certified ScrumMaster

06 / 2010 - 08 / 2012

Scrum Alliance · License: 000093864
